

# Mathematics Department University of Fribourg

**Send applications to:**

ioan.manolescu@unifr.ch

**Starting date:**

flexible;

no earlier than  
February 2019

## Available Postdoc Position

The Probability group of the Department of Mathematics of the University of Fribourg invites applications for a postdoc position under the supervision of Prof. Ioan Manolescu.

Candidates must have a strong background in probability, specifically in statistical mechanics. They will be expected to work on lattice models such as percolation, the random cluster, six vertex or loop  $O(n)$  models or self-avoiding walk.

Duties include a moderate teaching load: exercise sessions or the organization of a reading group. We offer a friendly working environment, funds for traveling and an attractive salary. The position is for a period of two years.

Knowledge of French or German is desirable but not mandatory.

Starting date: flexible, but no sooner than February 2019.

Applications, composed of a cover letter, a CV, a research project and two letters of recommendation (sent directly by their authors), should be submitted electronically to ioan.manolescu@unifr.ch. They will be evaluated first on January 1<sup>st</sup> 2019, then on the on a rolling basis.
