E.=Enthaltung

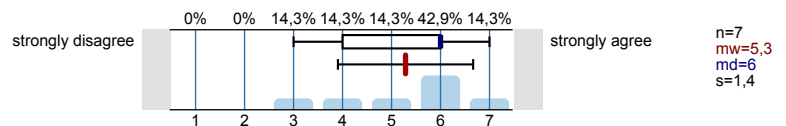

Interest / effort

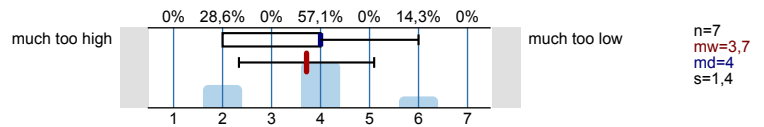

7. I understood the most important objectives of the course.

8. The learning outcomes are achieved.

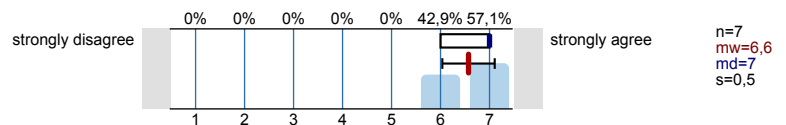

9. Considering the amount of work I put into the course the allocation of ECTS-Credits is:

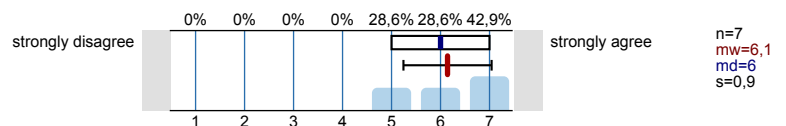

Competence of teaching

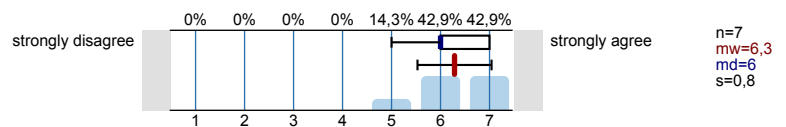

10. The teacher presents the subject matter in a way which makes the course interesting.

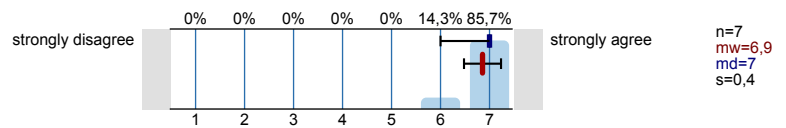

11. The subject matter is discussed in a critical way.

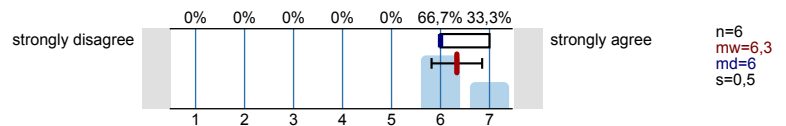

12. The teacher is good at explaining complicated things.

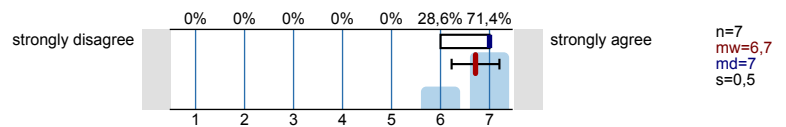

13. The teacher is committed to teaching and conveys enthusiasm.

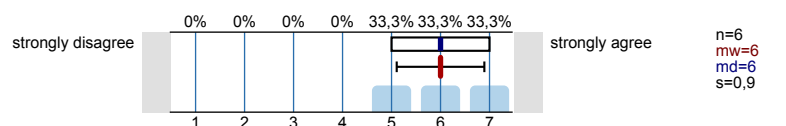

14. The teacher is well prepared.

15. The teacher speaks clearly and comprehensibly.

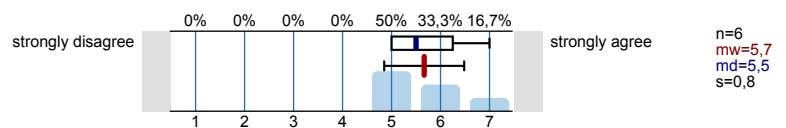

16. The course offers a good insight into the field.

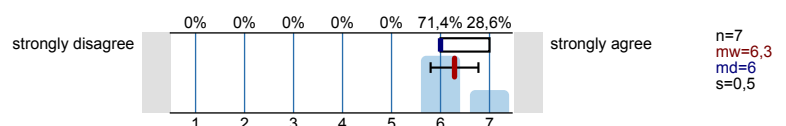

Didactic aspects

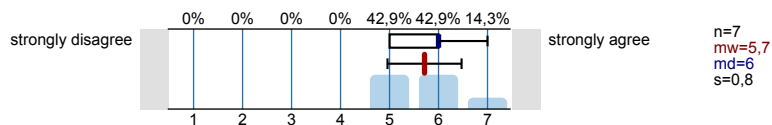

17. The course material is complete and of high quality (scripts etc.).

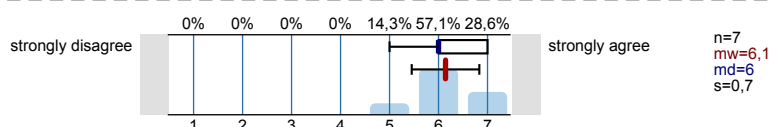

18. The provided teaching and technical support is adequate.

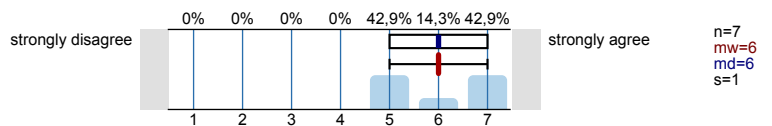

19. The teacher summarizes the subject matter regularly.

20. The course is clearly structured.

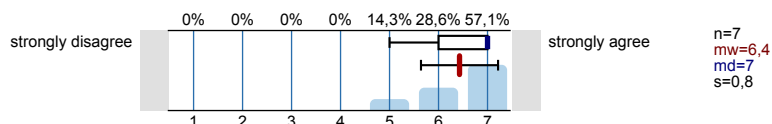

21. The subject matter is illustrated by examples.

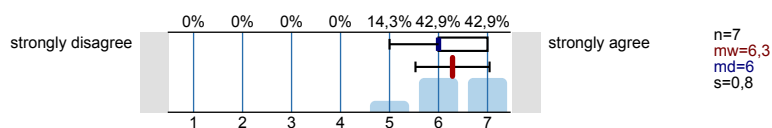

Commitment of the teacher

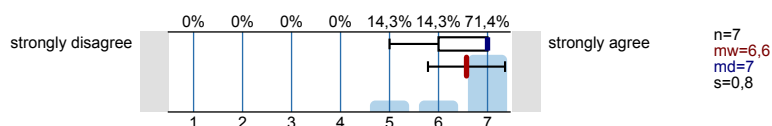

22. The teacher is friendly with the students.

23. There is a positive atmosphere in the course.

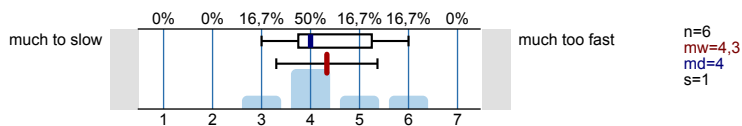

24. The teacher responds to questions and suggestions by the students.

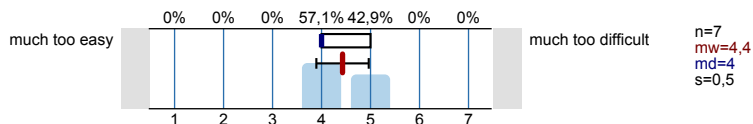

Requirements

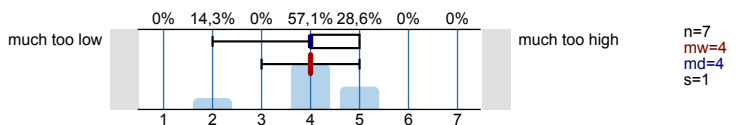

25. The pace of the course is:

26. The difficulty of the course is:

27. The requirements are:

General appreciation

28. Would you recommend this course to other students?

Comments

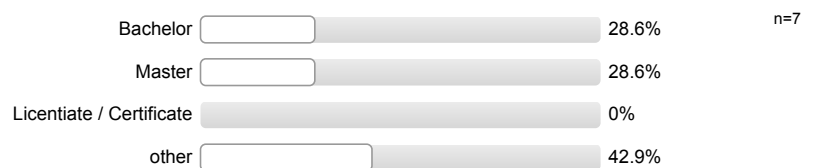

Comments / suggestions for improvement

Course 5 (60) difficult for 3rd year Bachelor students who did not take "Functional Analysis", I'd put some emphasis on this, and recommend to take it in Master maybe

Doing this ~~course~~ as part of the math 30MA and this ~~course~~ being oriented as an analytical course, it is obviously too hard for someone that is not used to work with to concepts ~~used~~ required for this course. But in general, I assume the course is of high quality for a more targeted audience.
